# Where there is life, there is Art

Early civilizations had a rich history and culture. With all having their own impactful styles of art that left an indelible mark on the world.

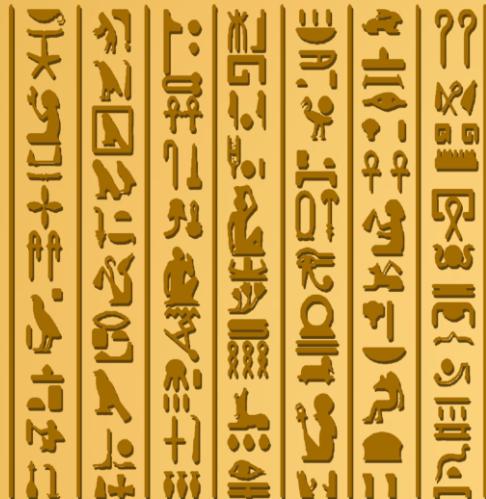

The Ancient Egyptians created incredible structures that defy logic and still amazes the best architects to this day.

The Indigenous people of the Americas with an incredible history, culture and their fight against the colonisation, this incredible civilization still represents 5% of the population to this day.

while the Aztecs built cities out of stone with intricate design, magnitude and beauty.

# A piece of history

The ancient world left an important legacy in the form of art. As it was a primary method for communicating information. The use of paintings, drawings, sculptures and other forms of artistic expression were important not only for recording events but also used to depict cultures, values and beliefs.

We wish to share with you our love for ancient history through unique NFTs that are inspired from different historical eras, and that you can buy, sell and exchange with different users on our ANTIQUA marketplace.

During ancient times, before the creation of money. Trading was the main method of buying goods, and it remained like that for ages. At ANTIQUA marketplace, we're bringing the essence of trading back, where users can exchange their NFTs with other users' NFTs or even other digital assets. All of this, harnessing the power of the blockchain technology.

# **What is ANTQ token ? and what's it utility ?**

\$ANTQ Token is a BEP-20 built on the Binance Smart chain, the token has a main goal which is to produce passive income for token holders by developing various profit-generating businesses.

Behind \$ANTQ token there is a talented team of business professionals, software developers, and specialists who have been working hard to ensure that we meet all the requirements set out by the NFT community.

We at ANTIQUA have a unique opportunity to develop a token that will not only satisfy the crypto and NFT community but will also be a sought-after token in the crypto market.

We wish to take time in ensuring that we meet the needs of our investors and the crypto community in general.

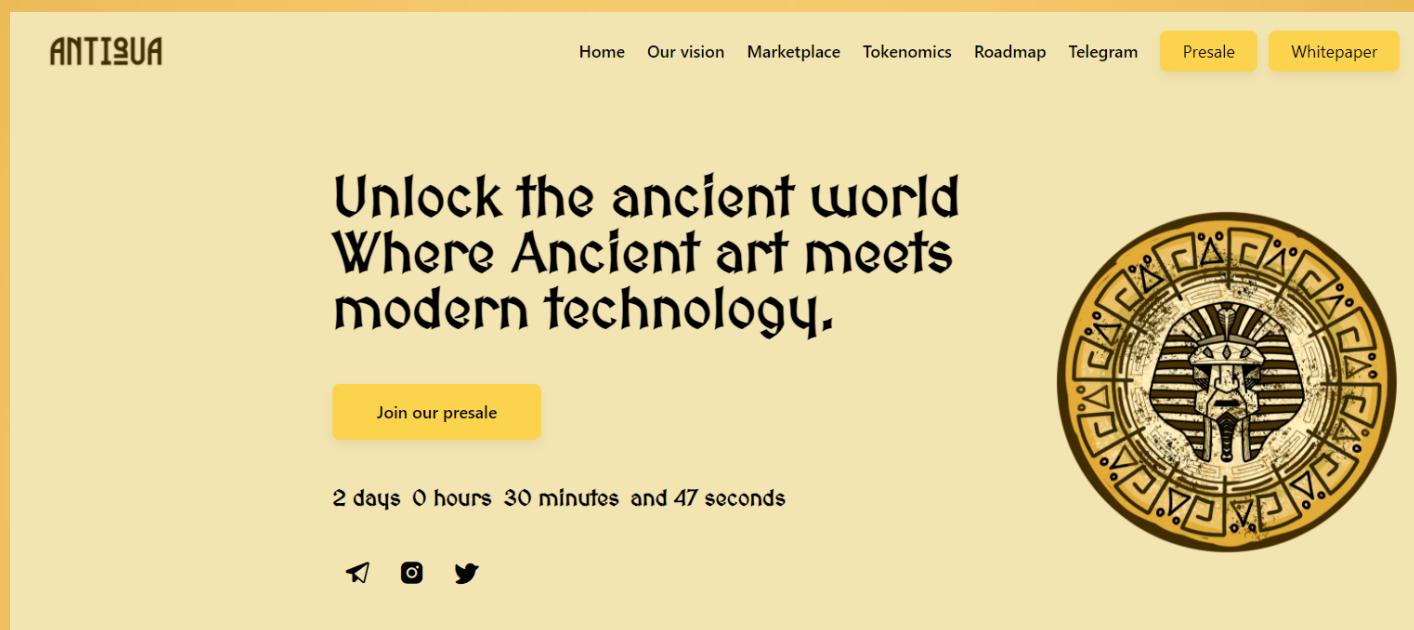

# The team's vision

Art is everywhere and always has been. It lines the walls of museums, buildings, and caves. It fills our halls and ears with sound and music. It captures the eye with beautiful movement and imagery. Art doesn't just express our passions and history; it defines, influences and shapes culture and civilization.

Let's embark on a journey to resurrect ancient civilizations visualized through unique artwork collections of NFTs that you can buy, sell, trade, and exchange on our platform.

# Antiqua marketplace

The image shows the homepage of the Antiqua marketplace. At the top left is the logo "ANTIQUE". At the top right are navigation links: Home, Our vision, Marketplace, Tokenomics, Roadmap, Telegram, Presale (highlighted in yellow), and Whitepaper. Below the navigation is a large text block: "Unlock the ancient world Where Ancient art meets modern technology." To the right is a circular emblem featuring a stylized Egyptian figure, possibly a pharaoh, standing on a lotus flower, surrounded by geometric patterns. Below the text is a yellow button labeled "Join our presale". Underneath the button is a timer showing "2 days 0 hours 30 minutes and 47 seconds". At the bottom are social media icons for YouTube, Instagram, and Twitter.

Antiqua is a marketplace for NFTs that are based on ancient civilizations. Here, you can buy, sell and EXCHANGE digital art that will never be duplicated or destroyed, the NFTs are minted when the artwork is created.

Our platform will soon offer more features and functions as we seek avenues to improve the user experience and entice and retain more users, who'll be able to carry out transactions on our platform. This includes buying and selling unique NFTs and exchanging NFTs with other users NFTs and more.

# Antiqua NFTs

We are a group of Blockchain developers & business executives who love to solve a real-world problem at scale. We are passionate about NFTs & how they are bringing changes to the world. Our NFT collections are inspired and based on ancient civilizations, from the Maya civilization era to the native Americans, we've captured the spirit of these great cultures in our art.

# How we got the idea ?

Not only are cryptocurrencies like Bitcoin and Ethereum on the rise, but an emerging type of token called Non-Fungible Tokens (NFTs) popularity is taking off. NFTs happen to go beyond cryptocurrency and blockchain industries; they are becoming the next big thing. That's why we created this NFT Collection that will be the first to depict ancient civilizations and will only be found on our marketplace.

# Tokenomics

From all \$ANTQ 14% for each transaction is distributed as followed :

**1% Charity fee is allocated to the Charity Fund**  
and the other 2% is allocated to the Burn Wallet to create a true burn, meaning you can exchange the actual value for the tokens you sent to the burn wallet.

**3% Rewards:** of each transaction are redistributed to holders in XRP (bep20).

**2% Buyback** of every transaction will be automatically made a Buyback to make sure the token has stable growth in order to create a rising price floor and stability.

**3% Marketing** of each transaction will be sent to the marketing wallet which will help the team with sustaining organic growth and hype for the token.

**1.5% Distributed to writers**

**1.5% Development of the marketplace**

# Roadmap

This Project is worked on by a professional team to bring its vision to life - By using straightforward Tokenomics and firm Marketing. The initial tokens act like a reward for early birds during presale, and the rest act like a rebate for the latecomers.

| Phase I  | Phase II   | Phase III   | Phase IV  |

The team has great experience in this field, which makes it easier to complete the project successfully and have the project in demand in the new market conditions.

# A word from Us

We're excited to begin our marketing campaign! It'll be the best way to get the word out of the presale, build momentum, drive attention and interest to our project and get quality investors that will support our vision.

We are not just another project with a fancy whitepaper and Tokenomics, but a project whose team have experience, knowledge, and resources to carry out the project's vision. We have a strong vision and a solid team who believe in the project and have a realistic timeline for making it a reality. In other words, the project is realistic and achievable. People can participate in the project to have a stake in our success and have a base of support going forward. The success of the project will help to strengthen a network of people who believe in a better future.
